#### Background:

SALEWA regularly conducts tests on its safety products to ensure the highest standards of quality and safety. As part of these quality control procedures carabines are tested for their loading capacity. During testing, the Hot G2 Bent carabine deviated in its lateral axis breaking load from the norm values.

Important note: The test was conducted under extreme conditions, which are highly unlikely to occur in practice. As a precautionary measure, SALEWA has decided to recall all Hot G2 Bent carabines from the market to prevent any risks for the user.

Owners of these carabines are asked to contact a SALEWA dealer or SALEWA Sportgeräte GmbH.

The carabines specified above will be immediately replaced with new carabines.

Note: Only Hot G2 Bent carabines with the above mentioned product serial numbers will be exchanged. No other carabines are affected by the recall.
